

Alternative Financing Options

Modern Financing Solutions for Hospitals:

The rate of improvement in the healthcare space is rapid. While this is excellent for patient wellbeing it presents a challenge for hospitals: How do you provide high quality care with limited funding? Financing ensures your physicians have access to the equipment they need to keep pace with the constantly changing healthcare landscape. Below are our financing options:

Bridge to Budget

Stuck waiting on much-needed capital equipment until your budget resets at the end of fiscal year? Pull forward urgent equipment purchases with our Bridge to Budget option. Deferred, step or annual payment programs allow payments to be deferred up to 12 months to match your budget cycle.

Equity Rental

Flexible monthly payment program that gives 50% equity from each payment towards applicable purchase if capital funding becomes available.

Operating Programs

Leverage excess operating budgets when capital budgets run low with our Operating Programs option. With programs customized to meet FASB-13 accounting guidelines utilize operating budgets for much needed equipment purchases.

Standard Financing

6 - 84 month financing terms with no upfront costs to fit any budget.

The Carrot Advantage

We're the Interventional Lab Specialists:

Carrot Medical pioneered large displays back in 2008 when we put the first large display in an interventional lab – our C-View Large Display Solution. Since then we have expanded our product offerings to solve other issues in the interventional lab but our focus has remained the same: To help physicians in Cath, EP and Hybrid OR's provide the best quality of care possible by advancing their interventional lab. Our hyper-focus on the interventional lab allows us to provide the best products and service possible.

Responsive Customer Service:

Our in-house service team, located all across the country, provides expert assistance at a moment's notice. Our 99% uptime guarantee means you can focus on taking care of your patients and we'll focus on ensuring that your equipment is functioning flawlessly.

Excellent Value:

We're in the business of your success which means that we care about the health of your patients and your bottom line. Our solutions are superior in quality to the competition while also better priced – saving you money while you save lives.

Rapid Innovation:

In a healthcare space marked by slow moving corporate giants, Carrot Medical is a breath of fresh air. Our nimble business model and short R&D cycle means that our solutions out innovate the competition. We are constantly working in tandem with our customers to adapt and improve our products. Partnering with Carrot Medical means more than getting a great product today, it means you have a voice in the products you use tomorrow.
