

C-VIEW™ PLATFORM

www.carrotmedical.com

ONE DISPLAY. INFINITE VALUE.

A few of the many hospitals that have made the successful transition to a C-View System:

- › Brigham and Women's
- › UPMC Mercy Hospital of Pittsburgh
- › Skyridge Medical Center
- › USC University Hospital
- › Holy Spirit Hospital
- › Beth Israel Deaconess Medical Center
- › Carolinas Medical Center

“It is very helpful to not have to look at a 19” monitor 6 feet away from where I stand during a case. The simple fact is that the monitor is beautiful and I can have any source as large as I want it... It helps me see better.”

FEATURES AND BENEFITS

- ▶ 8MP Quad HD Medical Grade Display
- ▶ Fully Customizable Layouts
- ▶ Anti-reflective / Protective Glass
- ▶ Custom Video Processing Technology
- ▶ Vendor Neutral Integration
- ▶ Flexible Control Mechanisms

C-VIEW™ PLATFORM SUPPORT PLANS

ONE DISPLAY. INFINITE VALUE.

→ Full, “bumper to bumper” support for those that want the maximum coverage.

→ An affordable, collaborative approach to full system support.

→ For the price sensitive customer that wants to protect a vital part of their C-View investment (Display Coverage).

	24 CARROT	18 CARROT	14 CARROT
COVERAGE			
24/7 Call Center			
On Site Service (Labor and Travel Included)		*	
Display Coverage		*	
Components, Parts, Cables		*	
Software Updates		*	
Imaging Modality Support (additional modalities)			
Preventive Maintenance		**	

Annual preventive maintenance also available for purchase.

* Customer's Biomed department will make all reasonable attempts to resolve any issue with the equipment prior to Carrot Medical's service engineer being dispatched to the customer's site.

** Customer's Bio-Med department will perform one (1) scheduled/planned preventive maintenance inspection that is designed to preserve safety and maintain high system uptime by avoiding unscheduled interruptions of system operations through a proactive check and adjustments. A record of the completion and results will be shared with Carrot Medical.
